

# Project Proposal by EkKadamAur

A proposal to implement the project:

## Promotion of inclusive and quality education by strengthening rural secondary education practices in Guntur District, Andhra Pradesh

The proposed project is aligned with:

Sustainable Developmental Goals (SDG) Number 4, 5, & 10

Schedule VII of Indian Companies Act-2013:

1. Promotion of education
2. Promoting gender equality

**The Objective:** “To promote inclusive and quality education by strengthening rural secondary education practices through ICT (Information Communication Technology) enabled effective and improved Teaching and Learning Methods.”

**Specific Objectives:**

1. To promote inclusive and quality education by establishing well-equipped, accessible smart classrooms and e-Learning Centers
2. To address learning gaps in the middle and high school education by building competencies of active learning in rural middle and high school students
3. To enable right ecosystem needed for imparting quality education
4. To enhance school leadership and teachers’ capabilities through effective school leadership development and Teacher Training Programmes.
5. To enrich holistic development of students in the areas of sports, arts, and culture
6. To coordinate and conduct co-curricular encouraging and engagement activities including edutainment workshops, edu-fun games, exhibitions, parent educational programmes, group learnings, scholarships, internships, competitions, and observance of international days.

**Target and description of target group:**

**Direct primary beneficiaries** - 1000 high school students from rural areas (Students with/without disabilities; boys & girls)

**Direct secondary beneficiaries** - 100 teachers/school administration staff and 100 parents

**Indirect beneficiaries** - Government departments, NGOs, and Community.

**Geographical reach:** Rural areas of Guntur District, Andhra Pradesh

**Duration:** 2 years

**Expected outcomes:**

- Rural high school students will have access to inclusive and quality secondary education
- Rural high school students will be more competitive to perform well in academics and aim for higher learnings.
- Rural Teachers will get hands-on innovative teaching experience and competencies to deliver quality education.
- Rural schools having right ecosystem for imparting quality education.
- Holistic development of rural high school students in the areas of sports, arts, and culture
